## APOLOGY AND ADDRESS TO THE SUBSCRIBERS.

---

THE Editor feels himself fully justified in assuring a liberal and generous Public, that the publication of the GENERAL LONDON GUIDE has been retarded only by circumstances entirely unforeseen. The importunate demands of his very respectable and numerous Subscribers have induced him to print it deficient of a few heads; but if the Patrons of the work find it curtailed in some less important articles, they may rest satisfied, that a second Edition shall, in every respect, be adequate to their wishes. He flatters himself, that something of originality will be seen in point of arrangement. The comprehensive view of the members of each Trade or Business respectively, must, he presumes, facilitate their mutual intercourse much more than by finding them scattered independently of each other, as in other Directories, in alphabetical arrangement.

As some omissions and alterations have unavoidably happened, they have been carefully noticed at the end of the Trades; and when some businesses, from their *particularity*, &c. could not be consistently classed under a general head, they have been arranged under the title MISCELLANEOUS.

As it is the Editor's intention to publish in future on the first day of January precisely, he purposes, previously thereto, to send men round to mark minutely the changes of residence, and all alterations that may take place among Stage Coaches, Waggon, Caravans, &c. though he at the same time requests that, if any error can be pointed out, or any place of residence changed, the same may be signified to him, a book being always open for correction at the Office, where every useful hint will be gratefully acknowledged by the Public's most respectful,

And obedient servant,

P. BOYLE.
